## Wildfire Activity

### California

- The critical and extreme fire weather threat has remained across Southern California for days.
- The National Weather Service pulled back its most dire "Particularly Dangerous Situation" Fire Weather Warnings on Tuesday but kept them in effect from early Wednesday morning until later Wednesday afternoon.
- Residents are urged to stay prepared as fire conditions remain critical for more than 6.5 million California residents on Wednesday.
- The Palisades Fire has burned 23K acres, destroyed 2,114 structures and is at 18% containment.
- According to CAL FIRE, the Palisades Fire's behavior on Tuesday was "moderate," but the threat of significant fire growth remained due to dry conditions and strong Santa Ana winds.
- The Palisades Fire is already the most destructive wildfire in Los Angeles history.
- The Eaton Fire has burned 14K acres, destroyed 3,988 structures and is at 35% containment.
- CAL FIRE said that containment efforts toward the Eaton Fire had been steadily progressing along the eastern edge of the blaze near Santa Ana Canyon.
