

DAILY DART

WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

May 21, 2024

Severe Weather Outlook

- Rounds of powerful storms are expected in the Midwest on Tuesday, continuing a dayslong severe weather threat for several parts of the U.S.
- The FOX Forecast Center said a big cold front will be sweeping through the country's middle part, affecting major cities from Chicago to Dallas. Ahead of the cold front, there will be a favorable environment for supporting severe storms as the atmosphere becomes very unstable.
- The worst storms are expected in Iowa, northern Missouri, northwestern Illinois, southwestern Wisconsin, and far southeastern Minnesota. Any severe storms could produce a few strong tornadoes, damaging winds, and large hail.
- Nearly 4 million people are at a Level 4 out of 5 risk of severe weather on Tuesday. This includes the cities of Des Moines, Cedar Rapids, Davenport and Waterloo in Iowa and St. Joseph in Missouri.
- The line of storms will continue into Wednesday, stretching from the eastern Great Lakes down to the Plains.
- The highest threat of severe weather will extend from North Texas to the Missouri Bootheel.
