WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

February 8, 2022

## Flood Activity

### Puerto Rico

- Dozens of schools in Puerto Rico closed on Monday following torrential rains that caused widespread flooding and several landslides across the U.S. Caribbean territory over the weekend.
- The severe weather also knocked over several trees and forced authorities to close various main roads, with more than a dozen people remaining in shelters after their homes flooded.
- Up to six inches of rain fell in less than six hours in some places, said Nino Correa, commissioner for the Bureau of Emergency Management and Disaster Administration.
- Toa Alta, a town in Puerto Rico's northern region, received the most rain with nearly 16 inches over the weekend, according to the National Weather Service in San Juan.
- Flooding along coastal areas was worsened by large waves of up to 13 feet hitting the island's north coast on Saturday and Sunday.
- Gov. Pedro Pierluisi Urrutia announced on Sunday that he had been in communication with several mayors whose municipalities were hard-hit by the record-setting rains resulting from the passage of a trough over the island, and that a damage analysis was being conducted to identify the necessary funds to meet the needs.
- The mayors of Cataño and Toa Alta declared states of emergency in their respective municipalities on Sunday afternoon.
