WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

February 8, 2021

Tornado Activity

Alabama (January 25th)

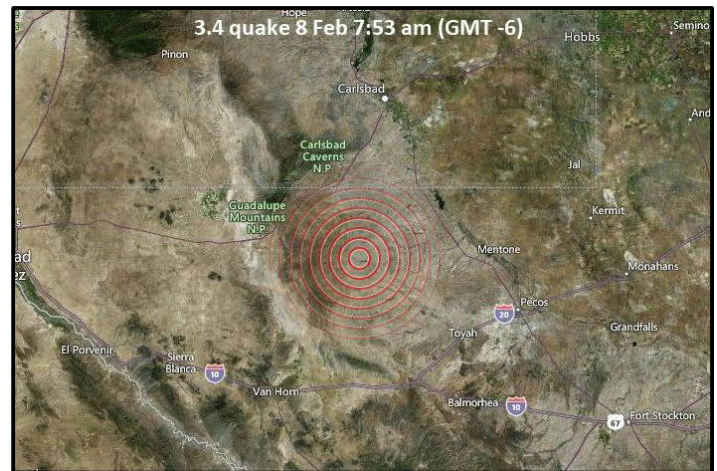

- The Fultondale community continued its clean-up efforts after the EF-3 tornado devastated the city the previous week.
- City officials say 265 homes were damaged by the tornado. 65 were destroyed and many of the homes damaged were uninsured.
- The City of Fultondale established a curfew for the areas within the city limits that have been impacted by the tornado.
- Joint PDAs were completed on February 6, 2021.
- The damage assessment is being submitted to the State EMA for Governor Ivey to approve the Declaration this week, in which will then be submitted to FEMA requesting the relief approval if the threshold is met per Federal guidelines.

Earthquake Activity

Texas

- An earthquake of magnitude 3.4 occurred this morning 52 miles south of Carlsbad, Texas, United States, the United States Geological Survey reported.
- The quake hit at a very shallow depth of 3.1 miles beneath the epicenter near Carlsbad, Eddy County, New Mexico, USA, in the morning on Monday 8 February 2021 at 7:53 am local time.
- The exact magnitude, epicenter, and depth of the quake might be revised within the next few hours or minutes as seismologists review data and refine their calculations, or as other agencies issue their report.
- According to preliminary calculations, we do not expect that the quake was felt by many people and did not cause any damage.
