WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

December 23, 2021

## Severe Storms & Tornado Activity

### Iowa

- At least 10 tornadoes touched down in northwest Iowa and resulted in damage to trees, powerlines, and various structures during a rare December storm system on Dec. 15, according to the National Weather Service.
- Since 1950, there have only been five recorded tornadoes in Iowa during December. Those tornadoes were only concentrated in the southern and eastern part of the state.
- The storm was so rare that it was the first time since record keeping began in 1986 that a severe thunderstorm and tornado warning had to be issued in December by the NWS Sioux Falls Office.
- The NWS said there were no injuries.
