WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

August 10, 2022

Tropical Activity

Atlantic - Disturbance 1

- A tropical wave located several hundred miles west-southwest of the Cabo Verde Islands continues to produce disorganized showers and thunderstorms.
- Some gradual development of this system is still possible over the next few days.
- However, environmental conditions are forecast to become less favorable by this weekend.
- This system is expected to move westward to west northwestward at 15 to 20 mph across the tropical Atlantic during the next several days.
- Formation chance through 48 hours...low...20 percent.
- Formation chance through 5 days...low...30 percent.
