WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

September 3, 2025

## Tropical Activity

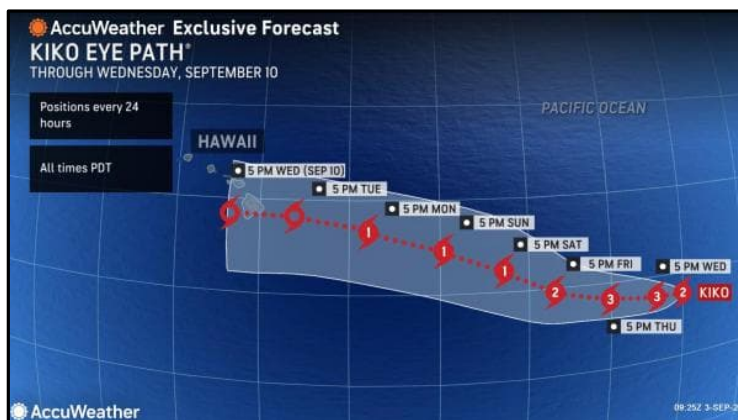

### Atlantic – Disturbance 1

- The National Hurricane Center (NHC) is continuing to monitor a tropical disturbance that emerged off the coast of Africa last weekend.
- Forecasters are saying it will likely become Tropical Depression Seven later this week or over the weekend.
- Currently located in the eastern tropical Atlantic to the southwest of the Cabo Verde islands.
- Producing disorganized showers and thunderstorms, but it is moving into an area where environmental conditions remain conducive for gradual development.
- Formation chance- 48 hours: Low (30%); 7 days: High (70%)

### Eastern Pacific – Hurricane Kiko (Cat 2)

- Hurricane Kiko continues to intensify in the eastern Pacific Ocean as it treks toward the west in the general direction of Hawaii.
- Kiko strengthened into a Category 2 hurricane late Tuesday afternoon.
- The National Hurricane Center reported that the nearly Category 3 hurricane was approximately 1,700 miles east of Hilo.
- Kiko is forecast to become a major hurricane later Wednesday.
- Kiko will continue to track westward, reaching Hawaii by the middle of next week, but it is forecast to lose wind intensity and become a tropical storm as it impacts the islands.
- General 1-2 inches of rain can fall across the islands from the middle to the end of next week.
- Highest rainfall totals are expected across the eastern side of the Big Island, where 4-8 inches with an AccuWeather Local StormMax™ of 16 inches can occur.
- Strong wind gusts of up to 60 mph can also occur along the Big Island and the southern parts of Maui.

## Wildfire Activity California

- A massive wildfire raging within a historic California Gold Rush community has forced residents to flee their homes and seek safety.
- According to the latest information from CAL FIRE, the 6-5 Wildfire in Tuolumne County grew rapidly and remains extremely active with no containment.
- Officials said mandatory evacuations have been ordered, with "widespread warnings extending further."
- The 6-5 Wildfire has burned more than 6,000 acres so far and is 0% contained.
- Several large wildfires were reported to have ignited on Tuesday, and CAL FIRE is now referring to the entire situation as the Tuolumne Calaveras Unit (TCU) September Lightning Fire Complex.
- Fires rang within Tuolumne and Calaveras counties in Central California.
- As of Tuesday, Newsom said more than 300 residents were told to flee, and shelters have been opened as a result and more than 1,400 residents were told to prepare to evacuate, if needed.
