WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

June 16, 2022

Tropical Activity

Atlantic – Disturbance 1

- A trough of low pressure located inland near the northeastern border of Nicaragua and Honduras is accompanied by a disorganized area of showers and thunderstorms.
- Additional development is unlikely today while the disturbance remains inland.
- The system is forecast to move slowly northwestward and could emerge over the Gulf of Honduras where some development is possible by Friday.
- Some development is also possible over the southern Bay of Campeche by early next week.
- Regardless of development, locally heavy rainfall is possible over Nicaragua, Honduras, Belize, and southeastern Mexico through the weekend.
- Formation chance – 48-hours: Low (10%)
- Formation chance - 5-days: Low (20%)

Flood Activity

Montana – Yellowstone Park

- Yellowstone National Park could partially reopen as early as Monday as officials continue to assess the damage caused by historic flooding, which now threatens to hamper the peak of the summer tourist season.
- The park's northern region, which bore the brunt of the flood damage, is expected to be closed for a "substantial length of time," which will likely go through the end of the season, the park said in a release Tuesday.
- Communities surrounding Yellowstone are also reeling from the catastrophic damage. Quickly moving waters compromised several roads and bridges, submerged cars, and even swept away homes as the underlying foundations became completely worn away.
- In Montana's Park County, which includes Gardiner, at least two homes collapsed into the swelling river and multiple homes and businesses were flooded, Greg Coleman, the county's disaster emergency services manager, told CNN.
- Gov. Greg Gianforte announced Wednesday that the state has submitted a request to the White House for an expedited presidential declaration of major disaster amid severe flooding in southern Montana.
- He is specifically requesting public assistance for 3 counties and hazard mitigation statewide.
- Evacuations have been lifted in Red Lodge and Stillwater County, but remain for Fromberg, and Belfry; new evacuations for Flathead County; pre-evacuations for Yellowstone County,
- Since Monday, the Montana National Guard has carried out 87 rescues by helicopter, according to a post on its Facebook account.

Severe Weather Activity

Wisconsin

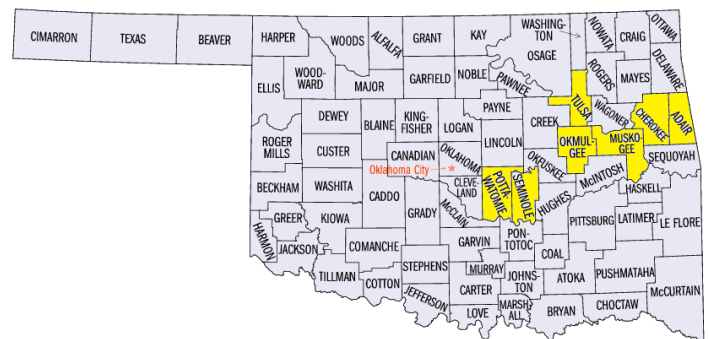

- Severe thunderstorms that rumbled through Wisconsin, as well as parts of Iowa and Illinois, conjured up the first tornado in the late afternoon on Wednesday in Oakdale, Wisconsin; this was one of several that touched down in the eastern portion of the state.
- Multiple tornadoes were reported between Oakdale and neighboring Tomah, Wisconsin, with a large tornado causing a partial closure of I-90 and I-94.
- In Mauston, Wisconsin, law enforcement confirmed tornado damage to a local hospital, with the severity of the damage unknown as of 6 p.m. CDT Wednesday.
- Another tornado popped up around the same time in Bowler, Wisconsin, in the central region of the state.
- Later in the evening, a tornado was reported to be at least half a mile wide in the Wyeville, Wisconsin, area, with numerous hardwood trees snapped along the tornado's path. What was called a "significant" tornado event also destroyed several homes in the area.
- As of 8:13 p.m. CDT Wednesday, over 122,000 Wisconsin residents were without power due to the swath of storms, according to PowerOutageUS.

Declaration Request

Oklahoma

- Severe weather inundated the state during the first week of May, including multiple EF1 and EF2 tornadoes, heavy rainfall, hail and flooding.
- Northeastern Oklahoma was most impacted by flooding, while central Oklahoma saw most of the tornadic activity.
- There were 21 storm-related injuries.
- As of May 11th, the Red Cross had completed disaster assessment work in areas impacted by either the tornado or flooding. Eleven residences were destroyed, 71 have major damage, 181 have minor damage and another 382 were affected.
- On June 15th, the Governor of Oklahoma requested an individual assistance declaration for 7 counties (Adair, Cherokee, Muskogee, Okmulgee, Pottawatomie, Seminole and Tulsa).
