WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

April 1, 2025

Severe Weather Outlook

Central U.S.

- Another round of severe weather is set to threaten the central U.S. with damaging winds, large hail and tornadoes starting late Tuesday and continuing through Thursday.
- After sunset, the severe weather threat will increase as storms form along and north of a warm front lifting across Kansas and Missouri.
- While there is some uncertainty about storm coverage farther south along the cold front, if any storms do develop, they could bring damaging winds and possibly a tornado risk.
- A significant risk of extreme flash flooding is growing for the Mississippi and Ohio valleys this week, where some areas could see nearly a foot of rain.
- By Thursday, the expected prolonged heavy rain continues the level 3 flash flood threat for parts of western Tennessee and Kentucky, with a potential upgrade to the highest threat level.

Flood Activity

Texas

- On March 31st, Gov. Greg Abbott directed the Texas Division of Emergency Management to request that the Federal Emergency Management Agency conduct a joint preliminary investigation to assess the damage South Texas communities experienced from the recent flooding.
- On March 29th, Governor Greg Abbott issued a disaster declaration for four South Texas counties impacted by rainfall and flooding that continues to affect homes, businesses, and the agricultural industry throughout the region.

DAILY DART

WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

April 1, 2025

- The counties included in the Governor's declaration are Cameron, Hidalgo, Starr, and Willacy.
- Cities like Alamo, located in Hidalgo County, reported more than 100 water rescues last week.
- Officials in Harlingen reported more than 200 rescues had been conducted while the city of Weslaco reported 30 to 40 water rescues, according to the Texas Tribune.
- Severe flooding in South Texas has left at least four people dead and forced emergency crews to rescue hundreds of people from rising waters.
- State officials say the Rio Grande Valley endured more than half of a year's worth of rain within the span of 48 hours last week, leading to submerged roads and waterlogged vehicles.
- Hidalgo County Judge Richard Cortez issued a declaration of local disaster that same day, stating parts of the region saw up to 14 inches of rain.
