WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

August 8, 2024

## Tropical Activity

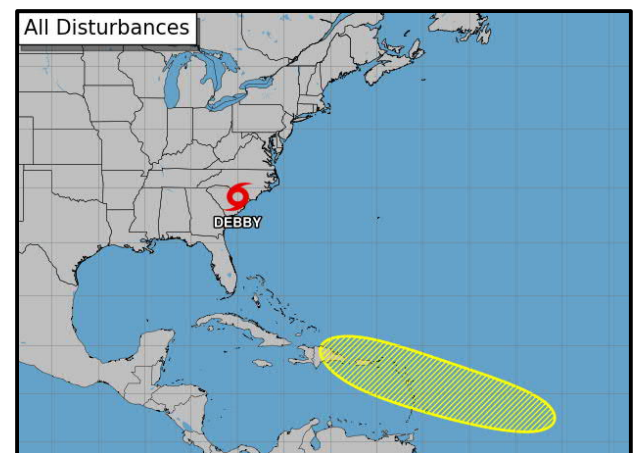

### Tropical Storm Debby

- Tropical Storm Debby, which has already dumped more than a foot of rain on parts of the South and is forecast to bring more, made a second landfall in the U.S. early Thursday when it crossed back into South Carolina.
- The storm, which had 50 mph winds, made landfall near Bulls Bay, South Carolina, the National Hurricane Center said in a 2 a.m. ET update.
- It's now tracking inland in a northwestward direction, while producing bands of heavy rain from eastern South Carolina to North Carolina and southern Virginia. Flash flood warnings are in effect from northeast South Carolina into southeast and central North Carolina.
- A tornado watch is also in effect until 1 p.m. EDT for parts of eastern North Carolina and southeast Virginia.
- Debby has whipped up at least 11 tornadoes confirmed by the National Weather Service as of early Thursday. That includes four tornadoes in Florida, four in South Carolina and three in North Carolina.
- There have been six deaths related to the storm, five of which occurred in Florida, according to reports from officials. Another person died in Georgia.

### Atlantic - Disturbance 1

- An area of low pressure could form in the central or western tropical Atlantic Ocean early next week.
- Some development of this system is possible while it approaches the Lesser Antilles during the early to middle part of next week and moves generally west northwestward toward the Greater Antilles thereafter.
- Formation chance through 48 hours...low...near 0 percent.
- Formation chance through 7 days...low...30 percent.
