WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

March 18, 2025

Tropical Activity

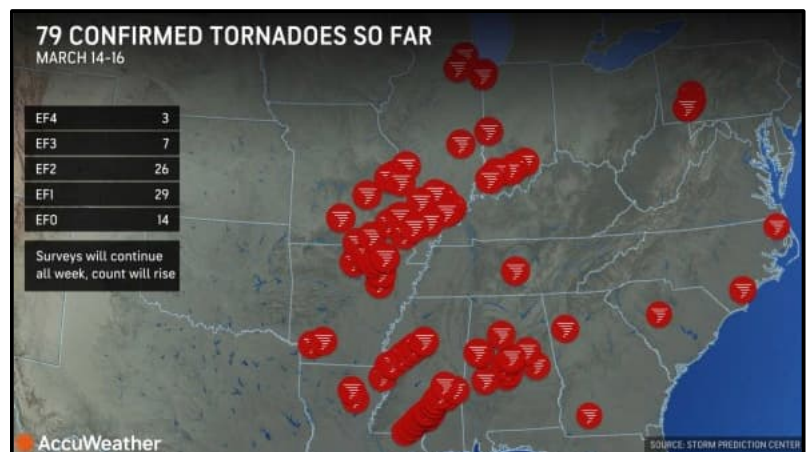

Disturbance #1

- Forecasters with the National Hurricane Center are keeping their eyes on an area of low pressure swirling in the ocean.
- Located about 700 miles northeast of the northern Leeward Islands.
- Producing gale-force winds amid a large area of disorganized showers and thunderstorms.
- Forecasters said they aren't expecting the low-pressure system to further develop
- It will move off to the north northwest into an environment of strong upper-level winds and dry air through Monday night and into Tuesday.
- Formation chance through 48 hours – Low (10%)
- Formation chance through 7 days – Low (10%)

March Severe Weather Outbreak

- A tornado outbreak swept across 13 states Friday and Saturday, with dozens of tornadoes responsible for at least 26 deaths and the destruction of countless homes and businesses. It was the deadliest tornado outbreak since March 31 - April 1, 2023, when 27 people were killed.
- A total of 79 tornadoes had been confirmed by the National Weather Service (NWS) as of Tuesday morning. That number could change as storm surveys are completed this week.
- The Storm Prediction Center (SPC) counted a total of 103 tornado reports Friday and Saturday.
- Over 300 tornado warnings were issued by the NWS during the two days of storms, with warnings issued from areas near the Gulf Coast on north to Illinois and Indiana.
- On the Enhanced Fujita Scale, three of the tornadoes have been preliminarily rated at least EF4 strength, according to the NWS in Little Rock, Arkansas. Two of those EF4s were in Arkansas, something that had not happened on one day in the state's history since 1997. One of the two EF4s was near Diaz in Jackson County, where massive damage was left behind.

Missouri

- On Monday, Governor Mike Kehoe announced the state has requested the Federal Emergency Management Agency (FEMA) participate in joint preliminary damage assessments (PDAs) for Individual Assistance in 23 counties following the severe storms and deadly tornadoes that devastated Missouri March 14-15.
- Joint PDAs are being requested for the following counties: Bollinger, Butler, Camden, Carter, Franklin, Howell, Iron, Jefferson, Laclede, New Madrid, Oregon, Ozark, Pemiscot, Perry, Phelps, Pulaski, Reynolds, Ripley, St. Louis, Stoddard, Wayne, Webster, and Wright.
- Beginning Thursday, March 20, six teams will survey and verify documented damage to determine if Individual Assistance can be requested through FEMA.
- Initial damage assessments estimate approximately 368 houses were destroyed, 356 with major damage and 1,058 with minor damage.

Pending Individual Assistance Declaration Request
