WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

November 20, 2025

Flash Flood Threat The Plains

- A powerful storm system bringing heavy rain to millions across parts of Texas and the southern Plains, including Oklahoma, Arkansas and Missouri, is expected to peak in intensity Thursday.
- Flood Alerts remain in southeastern Texas and expanded to cover Dallas on Thursday morning.
- Kerr County and other parts of Texas Hill Country dealt with 3 inches of rain that fell in the span of a few hours overnight.
- Texas Gov. Greg Abbott activated state emergency resources on Wednesday morning before storms developed over the region.
- Kerr County and other parts of Texas Hill Country warned residents to be aware of the flood potential on social media.
- A flash flood threat has been issued for northern Arkansas, eastern Oklahoma and southern Missouri.
- This includes cities like Fort Smith, Arkansas, Tulsa, Oklahoma and Springfield, Missouri.
- Storms in this system have a chance of becoming severe later Thursday and evening.
- According to NOAA's Storm Prediction Center, isolated hail, strong wind gusts, and even a tornado or two are all possible across Central and North Texas, Oklahoma and Arkansas.
