Severe Weather & Tornado Activity

Tennessee

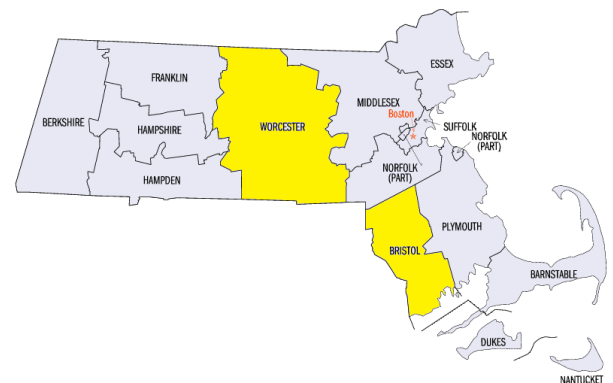

- Residents of small Middle Tennessee towns began an organized effort on Monday to clean up debris and help their neighbors after a deadly tornado ripped through the heart of the Volunteer State over the weekend.
- Montgomery County officials have confirmed three deaths in Clarksville, including one child, after a tornado on Saturday brought peak winds of 150 mph, tearing homes apart. More than 60 people were treated for injuries from the twister, according to the National Weather Service.
- Volunteers and donations are needed in Montgomery County, where storm survey teams from the National Weather Service confirmed an EF-3 tornado was responsible for the devastation in Clarksville. About 170,000 people live in Clarksville, home to the Fort Campbell Army base.
- According to the NWS, the EF-3 twister that struck Clarksville on Saturday was a long-track tornado that traveled 42.91 miles between its starting point in northern Tennessee and where it finally lifted in southern Kentucky. The tornado tracked for more than 11 miles in Montgomery County, destroying 114 homes and causing major damage to nearly 270 homes.
- The NWS survey team found EF-2 damage near Eva Drive, where some homes were shifted off their foundations before the tornado intensified to EF-3, crossing Highway 41 and hitting several businesses and a strip mall "where only the interior remained," according to the NWS.
- The tornado caused massive damage in several neighborhoods, including on Henry Place Boulevard, where two adults and one child died after the tornado destroyed four brick homes.
- The NWS estimated nearly 1,000 homes were damaged by the tornado, with 114 destroyed and 268 with major damage.

Declaration Requests

Massachusetts

- On September 11, a stationary frontal boundary, combined with a low-pressure area in eastern New Jersey and a convergence zone extending across Connecticut, Rhode Island, and Massachusetts, brought slow-moving showers and thunderstorms to the Northeastern United States, bringing heavy rainfall across portions of the region.
- Upwards of 10 inches of rain fell in Worcester and Bristol Counties, causing widespread flooding, downed trees, power outages and damage to homes, businesses, and infrastructure, including bridges, dams and train tracks.

WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

December 12, 2023

- Massachusetts governor Maura Healey described the flooding "catastrophic", and a flash flood emergency was issued for Leominster and Fitchburg.
- On September 12, 2023, Governor Maura T. Healey declared a state of emergency for Worcester County, Bristol County and other communities.
- On October 12, 2023, the Mayor of Leominster walked through the city to assess the damage and recovery efforts with the Federal Emergency Management Agency. More than 1,000 residents with damaged private property have applied for FEMA assistance, according to Leominster Mayor Dean Mazarella.
- On December 11, 2023, the Governor of Massachusetts requested a major disaster declaration for the severe storms and flooding that occurred September 11-13th. She is requesting individual assistance for two counties: Bristol and Worcester.
