WSP USA INSPECTION SERVICES DISASTER AWARENESS REPORT

November 15, 2022

Hurricane Nicole Florida

- As residents around the St. Johns River continued to pick up the pieces in the aftermath of Ian, Hurricane Nicole impacted the area and worsened already difficult recovery efforts.
- Normally, the St. Johns River water level is about 2 feet at the river gauge in Astor, Florida, a Lake County community situated about 45 miles to the north of Orlando.
- When Nicole made landfall in Florida on Thursday, Nov. 10, the gauge there hit 4.5 feet, which is just 2 inches shy of the record flooding set just last month during Ian.
- In general, the area saw a water level rise of about 1 to 1.2 feet after Nicole.
- "Unfortunately, with this historic flooding this fall, even though it's close to the river, there are people here who have never seen water come up to their properties like this, and, unfortunately, a lot of people here being impacted do not have flood insurance," AccuWeather National Weather Reporter Bill Wadell said.
- Further east, damages are estimated at more than \$522 million in a central Florida coastal county where homes collapsed into the Atlantic Ocean following Hurricane Nicole last week.
- Severe beach erosion from Ian made homes vulnerable to the impact of Nicole in Wilbur-by-the-Sea, a quaint beach community where single-family homes fell into the ocean last week.
- Volusia County officials said that 29 single-family homes in Wilbur-by-the-Sea had damage and that 17 were deemed unsafe following Hurricane Nicole. Additionally, seven single-family homes in nearby Ponce Inlet and three homes in New Smyrna Beach were deemed unsafe by inspectors.
- In Daytona Beach Shores and New Smyrna Beach, two dozen multistory condo buildings have been evacuated and deemed unsafe by building inspectors.
- However, building inspectors said that another seven condo buildings that had been considered dangerous after the storm were found to be safe Monday and residents were allowed to return.

Joint Preliminary Damage Assessments

State	Event	Number of Counties for IA		Start-End
		Requested	Completed	
FL	Tropical Storm Nicole Nov 7 & continuing	5	1	11/13-TBD
